4. "The code designation of the 26th Infantry Regiment is 9576. The code numbers of other units are unknown to me. Battalions and companies have no special numbers. The 26th Infantry Regiment address is: Garrison 10, Vimperk.
5. "During the summer of 1952 men born in 1928-1930 were serving. Military terms were not fixed. Normally the length of service was 24 to 25 months, but in 'special arms' (tanks, parachute corps) it was three years, and in the air force four years.
6. "Morale was very low. The soldiers were disinterested; politically, the majority of the soldiers were against the regime. Most of the officers were Communists, but the majority of these were not loyal to the regime unless they had political posts in the army, or had achieved a status which they would not have achieved without being Communist adherents. The older officers serving had indefinite status, unless they were experts and indispensable to the army.
7. "The granting of leave was left to the discretion of the officer in charge. Usually, leave was granted only to Communists. Other soldiers were granted leave only to attend a funeral of a close relative. Some soldiers were not granted leave once throughout their whole term of service.
8. "Food was good, but the quantity was small. Soldiers had meat twice daily, but the portions were very small.
9. "Political education was given one hour each day, the theme of the discussions being 'The Soviet Army, Our Model', or 'Socialization of farming', or 'Soviet Kolkhos, Basis of Welfare'. Once a month, an officer of the Regiment Command came to discuss the international situation. He enumerated cases of desertion by soldiers into the German Federal Republic, and pointed out that those deserters were trained by CIC in the Federal Republic and sent back into Czechoslovakia to terrorize the Czech citizens. Most desertions were due to the little free time and extensive political training given the soldiers. Ten out of the 12 prisoners at Susice had been imprisoned for desertion and attempting to escape to the West; of the 10, three were sergeants and one was a lieutenant.
10. "The officers of the 26th Infantry Regiment, Vimperk, were as follows:

(fnu) Chytil: Major, 50 years old [redacted]

(fnu) Churan: Major. commander of the food section / supplies? / 40 years [redacted]
